A Milestone for Pediatric Power

Clinicians and providers have been asking Quantum® for a true pediatric power base. While existing Quantum® bases were able to accommodate pediatric seating, the narrower width of the Edge 3 Stretto® offers outstanding maneuverability, making it ideal for children and teenagers.

The Suspension Advantage

Engineered from the ground up, the Edge 3 Stretto® is the first mid-wheel drive Quantum® base with true independent suspension without using an articulating beam.

FEATURES...

- Increased shock absorption due to shock angle
- The suspension creates a 30-45% improvement in ride as found through vibration testing
- Optimized spring rates for maximum obstacle climbing and overall comfort
